

SOME SERIAL AND MONOGRAPH REFERENCES
ON SOVIET WATER RESOURCE POLICY

Ginko, S. S., Vodnoenergeticheskoye Bogatstva SSSR, (Water Power Resources of the USSR), Moscow 1955. One of the best discussions of the water resources of the USSR and their distribution.

Stepankov, A. A., Osnovnye Voprosy Ekonomiki Gidroenergetiki, (Basic Problems of Economics of Water Power), Moscow, 1956. Pages 264-290 are pertinent, giving examples of calculations for the economics of complex utilization of water resources.

Current Digest of the Soviet Press covering the time period from 20 November to about 10 December 1959. There should be a number of articles on the hydroelectric builders conference. (Pravda, Izvestiya, and Stroitel'naya Gazeta for the same period give Russian language coverage of the conference.)

Gidrotekhnika i Melioratsiya, (Hydraulic Engineering and Conservation). Monthly journal published by the State Publishing House on Agricultural Literature, Moscow. Published since 1948. This journal covers agricultural use of water; irrigation, flood control, erosion control, and land reclamation.

Gidrotekhnicheskoye Stroitel'stvo, (Hydrotechnical Construction), monthly journal published by the State Electric Energy Publishing House, Moscow. Published since 1937. This journal covers hydroelectric dam construction, hydroelectric development of river systems, and a bit on flood control and irrigation.

Enclosure C

LIST OF MEMBERS OF EXCHANGE DELEGATION ON SOIL AND WATER USE TO THE USSR

Dr. D. W. Thorne, University of Utah

Dr. M. C. Cline, Cornell University

Mr. Charles Kellogg, Department of Agriculture

Mr. William H. Alloway, Department of Agriculture

Mr. Joseph Bulick, Department of Agriculture

Mr. William Donnon, Department of Agriculture

Mr. Lewis Nelson, Department of Agriculture
